PATRICIA KURKUL, Regional Administrator
NATIONAL MARINE FISHERIES SERVICE-
NORTHEAST REGION

Defendants.

2004 MAY 26 A 10:47 CIVIL ACTION
NO.

U.S. DISTRICT COURT
DISTRICT OF MASS.

04 11115 RGS

RECEIPT # 56209
AMOUNT \$ 150
SUMMONS ISSUED YES
LOCAL RULE 4.1
WAIVER FORM
MCF ISSUED
BY DPTY. CLK. F.O. M
DATE 5/26/04

INTRODUCTION

1. The Plaintiff, Northeast Seafood Coalition, Inc. ("NSC") is a corporation duly organized under the laws of the Commonwealth of Massachusetts, with its principal office in Gloucester, Massachusetts. NSC brings this action on behalf of its member, which consist of fishermen, industry groups and community representatives from New York to Maine.
2. NSC files this action to meet the technical requirement of the Magnuson Stevens Fishery Conservation Act ("the Act") (16 USC §1855) in order to preserve its future ability to challenge certain unresolved issues pertinent to Amendment XIII to the Northeast Multispecies Fishery Management Plan (the "FMP") published as a final rule by the Defendants on April 27, 2004. As stated in section 305(f) of the Act, such a challenge must be filed within thirty days of publication of the final rule or such a challenge will be barred. Nevertheless, NSC continues to work diligently and in good faith through the ordinary rulemaking process, including proceedings ongoing with the New England Fishery Management Council, ("NEFMC") and in cooperation with the National Marine Fisheries Service to complete elements that were not included in Amendment XIII, but which are necessary to complete the important goal of ensuring conservation and continued rebuilding

of stocks, while lessening unnecessary adverse impacts on commercial fishing interests, communities, shoreside businesses and consumers. In light of the highly productive and cooperative process to date, and the Agency's stated intention to address and correct deficiencies in some of the measures, NSC believes it is highly likely that most, if not all, issues raised in this Complaint will be adequately resolved through ordinary rulemaking, rendering this matter moot.

3. NSC contends that the plan as it is currently implemented violates applicable law in at least the following measures or deficiencies:
 - a. Amendment XIII does not provide adequate opportunity for fishing on healthy stocks such as Special Access Programs and for use of category "B" fishing days
 - b. Amendment XIII places unworkable restrictions on fishing effort under the Transboundary Sharing Agreement with Canada.
 - c. Amendment XIII contains "default measures" that provide for a further, automatic reduction in days at sea in 2006, and these default measures are designed to go into effect in those years unless it is determined that stocks are meeting rebuilding trajectories consistent with the controversial biological reference points developed by the 2002 Working Group for Reassessment of Biological Alternatives. This backdoor reliance on these biological reference points in the first five years of the plan completely contradicts the adaptive management strategy upon which Amendment 13 is based. Under this strategy, the plan is deliberately and unambiguously intended to be a purely mortality driven plan for the first five years. Moreover, one of the reasons this adaptive, mortality rate driven plan was adopted was to defer consideration of the controversially high biomass targets developed by the 2002 Working Group for five years until a reassessment, based on five years of new information, could be undertaken. The default measures, by relying on the 2002 Working Group biomass targets in the first five years of the plan, directly raise the issue of the scientific and legal adequacy of the Working Group's biological reference points.
4. NSC notes that current rulemaking before the NEFMC and measures under consideration by the Defendants may moot, in whole or in part, the challenges which are asserted herein, and will temporarily withhold service and thereafter seek to stay this action pending the outcome of normal rulemaking.

PARTIES

5. Plaintiff, Northeast Seafood Coalition, Inc. ("NSC") is a Massachusetts corporation with its principal place of business in Gloucester, Massachusetts. Many of NSC's members are

owners and/or operators of commercial vessels fishing out of ports in the Northeast region. They regularly fish in and are financially dependent on the areas affected by the FMP and Amendment 13 to that plan. NSC also represents communities and shoreside businesses that will also suffer severe economic and other harm as a result of the actions of Defendants complained of herein. Individually and through their fishing industry organizations, the Plaintiff's members continue to participate throughout the agency proceedings which are the subject of this action, raising the issues set forth in this action and proposing alternative management measures.

6. Defendant Donald Evans is Secretary of Commerce and is charged by the FCMA with carrying out the provisions of that statute, including promulgation of regulations to implement the Groundfish Fishery Management Plan.
7. Defendant William Hogarth is the Assistant Administrator at the National Oceanic and Atmospheric Administration ("NOAA"). NOAA is an agency within the Department of Commerce. Under regulations at 50 C.F.R. Part 648, the Assistant Administrator is responsible for carrying out duties established by the FCMA concerning approval and implementation of fishery management plans.
8. Defendant Patricia Kurkul is the Acting Regional Administrator of the National Marine Fisheries Service ("NMFS"). NMFS is part of the National Oceanic and Atmospheric Administration ("NOAA"), an agency within the Department of Commerce. Under regulations at 50 C.F.R. Part 600, the Regional Administrator is responsible for carrying out duties established by the FCMA concerning approval and implementation of fishery management plans.

JURISDICTION AND VENUE

9. The actions of Defendants are reviewable under § 1855 of the Fishery Conservation and Management Act ("FCMA," 16 U.S.C. § 1801, et seq.); § 4332 of the National Environmental Policy Act ("NEPA," 42 U.S.C. § 4321, et seq.); § 611 of the Regulatory Flexibility Act, 5 U.S.C. § 601, et seq.; Executive Order 12866; the Administrative Procedure

Act, 5 U.S.C. § 551, et seq., and § 701, et seq. This court has jurisdiction of this action pursuant to those statutes and 28 U.S.C. §§ 1331, 1346, 2201 and 2202.

10. Venue is proper in this court because the affected fishery occurs, in part, off the coast of Massachusetts, the plaintiff is a Massachusetts corporation with its principal place of business in Gloucester, Massachusetts, and the offices of the Defendants are located in various cities in eastern Massachusetts. NSC notes that there is currently an action pending in the United States District Court for the District of Columbia, before the Honorable Gladys Kessler, CLF v. Evans, 00-1134, which mandated implementation of new regulations for the FMP, although that action appears moot given implementation of Amendment XIII.

STATEMENT OF THE CASE

11. On April 27, 2004, the Secretary of Commerce published in the Federal Register a final rule amending the Northeast Multispecies Fishery Management Plan for groundfish by imposing new regulations for rebuilding of groundfish stocks.
12. The final rule, *inter alia*, sets new overfishing definitions, rebuilding schedules, gear restrictions, days at sea reductions, area closures and for the implementation of certain default measures if rebuilding goals are not met on certain stocks within given timeframes. NSC contends that the overall effect of Amendment XIII will be to marginally accelerate ongoing rebuilding efforts, at significant loss of fishing opportunity with resulting damage to fishing interests, shoreside business, communities and consumers, with a resulting long term loss to the nation. As such, the Amendment must lessen adverse impact as much as possible, and afford access to healthy fish stocks to allow achievement of optimum yield in those fisheries.

CLAIMS FOR RELIEF
FIRST CLAIM FOR RELIEF
VIOLATIONS OF THE FISHERY CONSERVATION AND MANAGEMENT ACT

13. The allegations of Paragraph 1 through 12 are incorporated by reference.
14. Section 1851 of the FCMA provides that any fishery management plan ("FMP") and any regulation promulgated to implement an FMP shall be consistent with specified National Standards. In approving Amendment XIII to the FMP, Defendants have failed to adhere to these standards and have acted in contravention of several of them.
15. For the foregoing reasons, the Defendants' actions in implementing Amendment XIII was arbitrary, capricious, an abuse of discretion, in excess of statutory authority or not in accordance with law; and these actions should be set-aside by this court.

SECOND CLAIM FOR RELIEF
VIOLATIONS OF THE REGULATORY FLEXIBILITY ACT

16. The allegations of Paragraph 1 through 20 are incorporated by reference.
17. The Regulatory Flexibility Act, 5 U.S.C. § 601, et seq., ("RFA"), as amended in 1996 by the Small Business Regulatory Enforcement Fairness Act, requires an agency to prepare both an initial and final regulatory flexibility analysis meeting statutory requirements in connection with final rulemakings that have a "significant" economic impact on a "substantial" number of "small entities."
18. NMFS has performed a limited economic analysis but failed to fully develop and consider alternatives to lessen economic impact in violation of the RFA.
19. The purported determination under the Regulatory Flexibility Act was arbitrary, capricious, and unsupported by the evidence, since a substantial number of small entities will in fact be significantly affected by the proposed regulation, and the Agency failed to develop or consider less burdensome alternatives.
20. Plaintiff and its members commented on the significant economic effects of the proposed regulation on a substantial number of small entities, but Defendants have not yet adequately

responded to these comments at this time, and the final rule is therefore based in inadequate analysis.

21. In adopting the Endorsement Regulations, Defendants failed to prepare an adequate final regulatory flexibility analysis as required by 5 U.S.C. § 604.
22. For the foregoing reasons, Defendants' promulgation of the final rule was arbitrary, capricious, an abuse of discretion or otherwise not in accordance with law, in excess of statutory authority, lacked observance of the procedures required by law, and unsupported by substantial evidence.

THIRD CLAIM FOR RELIEF

VIOLATIONS OF THE ADMINISTRATIVE PROCEDURES ACT

23. The allegations of paragraphs 1 through 22 are incorporated by reference.
24. Defendants failed adequately address comments to implement measures that would have lessened the burden the current restrictions placed on commercial fishing interests, shoreside businesses, communities and consumers.
25. In each of the foregoing respects, the Defendants' actions were arbitrary and capricious or in excess of authority in promulgating the endorsement regulations and adopting the measures contained in Amendment XIII. The record is wanting in substantial evidence that certain aspects of the rule were needed, that it was reasonably related to a legitimate objective authorized under the controlling statute, or that it would achieve their purposes. Further, the Government Defendants have repeatedly ignored substantial evidence that their "scientific" data is seriously flawed, and thus have not relied on appropriate evidence, in particular with regard to the triggering measures for the Default Measures referred to above. Even if the stated purposes of the rule are accepted as legitimate, the record shows that the effect of the

rule was broader and more harmful to plaintiffs protected interests than was necessary to achieve those purposes, and the action is therefore arbitrary and capricious. For these reasons, the Defendants' promulgation of the final rule violated requirements of the Administrative Procedures Act.

FOURTH CLAIM FOR RELIEF
VIOLATIONS OF THE NATIONAL ENVIRONMENTAL POLICY ACT

26. The allegations of paragraphs 1 through 23 are incorporated by reference.
27. The restrictions set for the in Amendment XIII will have a permanent and profound adverse effect on the future of fishing businesses, communities and consumers for purposes of the National Environmental Policy Act, 42 U. S. C. § 4321 et seq. ("NEPA.
28. As a result of these significant impacts, defendants were required to prepare an environmental impact statement but failed to do so adequately.
29. As a result of the Agency's inadequate analysis as required by NEPA, Amendment XIII fails to mitigate the adverse impact on the human environment.
30. For the foregoing reasons, Defendants approval of Amendment XIII, failed to comply with procedures required by law. Further, these actions were arbitrary, capricious, an abuse of discretion, not in accordance with law, in excess of statutory authority, or unsupported by substantial evidence.

RELIEF REQUESTED

Plaintiff respectfully requests that to the extent the matters complained of herein are not corrected by ongoing rulemaking, the Court enter judgment against the Defendants as follows:

- A. Declare the final rules published on April 27, 2004 are, in whole or in part, violation of the Fishery Conservation and Management Act, 16 U.S.C. § 1801 et seq., Regulatory Flexibility

- Act, 5 U.S.C. § 601 et seq., the National Environmental Policy Act, 42 U.S.C. § 4321, et seq., and the Administrative Procedures Act, 5 U.S.C. § 552, et seq.;
- B. Enter a preliminary and permanent injunction setting aside the final rules published in the Federal Register on April 27, 2004, including any and all subsequent corrections that were published;
- C. Enjoin enforcement of the regulations, gear restrictions, days at sea restrictions and additional closures until full and timely compliance with the Regulatory Flexibility Act has occurred;
- D. Award Plaintiff its reasonable costs and fees of this litigation, including expert's fees pursuant to the Equal Access to Justice Act;
- E. Upon conclusion of the ongoing rulemaking, schedule this matter for expedited hearing in accordance with the provisions of the FCMA if the measures complained of have not been adequately addressed; and
- F. Grant the Plaintiff such further relief as this Court deems just and proper.
